FUND AND MARKET REVIEW

Sundaram India Midcap Fund

It was a tough year for the Fund as the Indian economy and equity market, mid and small cap stocks in particular, were buffeted by the fall out from the unexpected default of the unlisted infrastructure financing giant, IL&FS. The situation was further compounded by the severe pressure on the Indian Rupee arising from a sharp rise in oil prices. Market pressure eased towards the end of the period under review, as investors cheered the emphatic re-election of Prime Minister Narendra Modi and falling oil prices provided succour to the Rupee.

IL&FS default was a black swan event for the market. It was completely unexpected because there were no prior ratings downgrades and the firm boasted of a marquee parentage - LIC, Orix, ADIA, HDFC and SBI being amongst the key shareholders of the company. With outstanding loans amounting to an estimated USD 13 bn, the default shocked the financial system causing liquidity to dry up for other Non Banking Finance Companies (NBFCs) and rates to ratchet up. To their credit, the Government and the RBI moved fast to calm the market. As a first step, the Government removed the entire board of IL&FS and replaced them with prominent people from the financial industry and well renowned ex bureaucrats. In an effort to prevent the money market from freezing, the RBI conducted open market operations to inject liquidity as well as eased some reserve measures. Whilst these moves provided some relief, they were not sufficient to offset the shutting off of the liquidity to all but the strongest of NBFCs thereby causing a credit shortage in sectors like the auto and real estate which were overly dependent on NBFC financing.

Another event that was also unexpected but was positive in nature, was the thumping re-election of Prime Minister Narendra Modi in the 2019 general elections. Of the 543 seats that were up for grabs, Narendra Modi led BJP and the NDA secured 303 and 353 seats respectively, bettering the 282 and 336 seats that they had respectively won in the previous general election. This was also the first time since 1971 that an incumbent prime minister had secured an absolute majority for the Party for a second successive term. This dominant showing has a twin benefit for the economy as it removes the overhang of political uncertainty that was weighing on corporate and consumer spending over the last year or so and also paves the way for further reforms going forward.

On the economic front, data was mixed as the economy struggled to overcome the effects of the slow down in credit flow. April Industrial Production came in well above expectations at 3.4% yoy, rising 2.1% sequentially. June PMI however disappointed, with the composite PMI falling to a 13 month low of 50.8. Auto sales continued to remain weak, falling by double digits in May across most categories. Inflation remained subdued at 3.1% yoy in May, coming in line with expectations. The ongoing monsoon season has got off to a weak start, with cumulative rainfall running 30% behind normal as of end June.

Sundaram Global Brand Fund

Notwithstanding slowing global growth and a potentially pyrrhic trade war between the top two economies in the world, the Fund performed well during the period under review.

Following a period of synchronous strong economic growth worldwide, there are now clear signs of a broad based slowdown, particularly outside of the US. The J.P. Morgan Global Manufacturing PMI was steady in June, unchanged from the three year low in May. A slight pickup in the pace of the service sector activity during the month was offset by the first contraction in manufacturing output since October 2012. Manufacturing PMI signalled contraction in 18 out of 30 countries whereas the Services PMI highlighted downturn in 3 of the nations covered. In US, recent data was mostly positive. June employment report, auto sales, ISM Manufacturing PMI and May existing home sales came in above expectations while June Non-manufacturing PMI and May new home sales disappointed. In Europe, unemployment rate fell to a decade low in May. However industrial production contracted again in April, falling 0.4% yoy, and volume of retail trade continued to drop sequentially, falling 0.3% mom in May. In China, activity weakened further in May. Industrial production growth decelerated to 5% yoy from 5.4% in April while fixed asset investment growth moderated to 2.7% yoy from 4% in the previous month. Retail sales however were a bright spot, rising 6.4% yoy from 5.1% previously. In Japan, household spending surpassed expectations in May, rising at the fastest pace in four years. The Tankan quarterly survey however showed that confidence amongst the big domestic manufacturers plummeted to its lowest level in three years.

On the trade front, US and China have reached an uneasy truce of sorts for the time being with the US delaying further tariff hikes and not setting a firm deadline for a new trade deal. Whilst tensions may have eased in the near term, a permanent deal appears quite some distance away at the moment. China has reiterated its demand for a complete reversal of previous tariff hikes as it presses ahead with an 'unreliable entities' list, while the US ban on Chinese high-tech companies remains.

On the policy front, with confidence faltering, central bankers have stepped up to reassure the markets. Fed Chairman Powell in a recent speech said that the Fed is keeping a close watch on the developments and will act appropriately if growth falters. The ECB in its just concluded meeting ruled out raising rates in the next year and even opened the door to cutting them or buying more bonds if growth weakened in Europe.

STRATEGY AND OUTLOOK

Sundaram India Midcap Fund

Whilst there are short term issues plaguing the Indian economy, these are not structural in nature. With a strong government at the helm, we remain positive on the medium and long term prospects of the Indian economy. The fund portfolio is currently trading at 19.1x March 2021 internally estimated earnings, with an average RoE of 15% and an average estimated annual earnings growth of 19.9% over the next 2 years.

Sundaram Global Brand Fund

While the global economic environment is certainly challenging, the fund invests in quality companies from around the world and which more often than not, are leaders in their spheres of operation and have strong balance sheets which enable them to withstand the downturn better. The fund portfolio, at the end of June, was trading at 15.8x estimated 2020 earnings, with an average RoE of 20.6%, dividend yield of 1.9% and an average annual earnings growth of 6.6% over the next 2 years.

PERFORMANCE OF THE FUND

For the financial year ended 30 June 2019

Sundaram India Midcap Fund

Cumulative returns for the Fund are calculated up to 30 June 2019 based on single pricing and the related expenses of the fund being accounted on daily accrual basis.

All performance figures are calculated on single pricing (NAV - NAV) basis and assuming all dividends and distributions are reinvested at the then prevailing NAV without taking into account the effect of initial sales charge and exit load, if any. In case of schemes in existence of more than one year, Compounded Annualised Growth Returns (CAGR) are provided. Past performance is not indicative of future performance.

During the year, there was a change in the benchmark to S&P BSE Mid Cap Total Return Index from S&P BSE Mid Cap Index. This change was made to align with mutual funds in India, where all benchmarks were changed to total returns indices as per the directives of the Securities and Exchange Board of India.

Time Period	Fund Returns in USD (%) Unit Class- CORNERSTONE	Benchmark Returns in USD (%) S&P BSE Mid Cap TR Index

Independent auditors' report to the unitholders of Sundaram India Funds

(Constituted under a Trust Deed in the Republic of Singapore)

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Sundaram India Funds (the "Fund"), which comprise the statements of financial position and statements of portfolio as at 30 June 2019, the statements of total return and statements of movements in unitholders' funds for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements are properly drawn up in accordance with the recommendations of *Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts"* issued by the Institute of Singapore Chartered Accountants so as to present fairly, in all material respect, the financial position and portfolio holdings of the Fund as at 30 June 2019 and the financial performance and movements in unitholders' funds for the year ended on that date.

Basis for opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Fund in accordance with the Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Fund's Manager (the "Manager") is responsible for the other information contained in the annual report. Other information is defined as all information in the annual report other than the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager for the financial statements

The Manager is responsible for the preparation and fair presentation of these financial statement in accordance with the recommendations of Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants, and for such internal control as the Manager determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Manager is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intends to terminate the Fund or to cease the Fund's operations, or has no realistic alternative but to do so.

The Manager's responsibilities include overseeing the Fund's financial reporting process.

Auditors' responsibility for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the financial statements

These notes form an integral part of the financial statements.

The financial statements were authorised for issue by the Manager and the Trustee on 16 September 2019.

1 General

Sundaram India Funds and Sundaram Global Brand Fund are sub-funds of Sundaram India Funds (the "Trust") which is an open-ended Unit trust constituted pursuant to the Trust Deed dated 23 May 2013 (as amended by a First Amending and Restating Deed dated 11 June 2014 and Second Amending and Restating Deed dated 21 May 2015) (collectively the "Trust Deed") between Sundaram Asset Management Singapore Pte. Ltd. (the "Manager") and HSBC Institutional Trust Services (Singapore) Limited (the "Trustee"). The Trust Deed is governed by the laws of the Republic of Singapore. The Manager holds a Capital Markets Services (Fund Management) License under the Securities and Futures Act and is regulated by the Monetary Authority of Singapore.

As at 30 June 2019, the Trust has no employees. The investment activities are managed by the Manager. The registered office of the Manager is located at 50 Armenian Street, #02-02, Wilmer Place, Singapore 179938.

The Trust offers a series of sub-funds which invest directly into equity securities. The sub-funds are:

Sundaram India Midcap Fund

The principal objective of Sundaram India Midcap Fund is to achieve capital appreciation over the medium term to long term by investing directly into the equity of listed companies in India. Sundaram India Midcap Fund may also have some investments in debt securities.

The Manager defines "Midcap" as a stock whose market capitalisation does not exceed the market capitalisation of the 50th stock (after sorting the securities in a descending order of market capitalisation) listed with the National Stock Exchange of India Limited. The Manager may, at its discretion define the lower limit of the market capitalisation of Midcap stocks, and may also fix the percentages within which the market capitalisation could be varied from the foregoing limits.

Sundaram Global Brand Fund

The principal objective of the Sundaram Global Brand Fund is to provide long term capital appreciation to investors by primarily investing in equity and equity related securities of leading global brand companies listed on stock exchanges across the world.

The Trust has entered into several service agreements in relation to the management of the Trust. The fee structures for these services are as follows:

(a) Trustee's fees

Pursuant to the Trust Deed, the Trustee's fee is 0.035% per annum of daily net asset value ("NAV") per sub-fund, subject to a minimum of US\$10,000 per annum per sub-fund. The rate of Trustee Fee may, with the approval of the Manager, be revised to a maximum of 0.1% per annum of NAV with no less than one month's notice to the Unitholders.

(b) Manager's management fees from the sub-funds

The Manager is entitled under the Trust Deed to the following management fees:

Sundaram India Midcap Fund

- 0.75% per annum of daily NAV for Cornerstone Class Units
- 1.5% per annum of daily NAV for Classic Class Units
- 2% per annum of daily NAV for Emerald Class Units
- 1% per annum of daily NAV for Institutional Class Units

Sundaram Global Brand Fund

- 0.75% per annum of daily NAV for Cornerstone Class Units
- 1.5% per annum of daily NAV for Classic Class Units
- 2% per annum of daily NAV for Sapphire Class Units #
- 1% per annum of daily NAV for Institutional Class Units
- 1.5% per annum of daily NAV for Platinum Class Units

Service charge of 2% of NAV will be accrued daily for Sapphire Class, for a period of 1 year from date of allotment.

2 Summary of significant policies

2.1 Basis of preparation

The financial statements, expressed in US dollars ("US\$"), are prepared in accordance with the Statement of Recommended Accounting Practice 7 "Reporting Framework for Unit Trusts" issued by the Institute of Singapore Chartered Accountants. RAP 7 requires that accounting policies adopted should generally comply with the principles relating to recognition and measurement of the Singapore Financial Reporting Standards ("FRS").

For the purposes of calculation of net asset attributable to unitholder per unit for the issuance and redemption of units, quoted investments are stated at the last transacted price, in accordance with the Code on Collective Investment Schemes (under the Security and Futures Act (Cap 289)).

For the purposes of preparation of these financial statements, the basis used for calculating the ratio of expenses and portfolio turnover ratio are in accordance with the guidelines issued by the Investment Management Association of Singapore and the Code on Collective Investment Schemes under the Securities and Futures Act (Cap. 289) respectively.

2.2 Basis of measurement

The financial statements have been prepared under the historical cost basis except for certain financial assets which are measured at fair value.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Financial instruments

Non-derivative financial assets

The sub-funds initially recognise loans and receivables on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date, which is the date that the sub-funds becomes a party to the contractual provisions of the instrument.

The sub-funds derecognise a financial asset when the contractual rights to the cash flows from the asset expire, or they transfer the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or they neither transfer nor retain substantially all of the risks and rewards of ownership and do not retain control over the transferred asset. Any interest in transferred financial assets that is created or retained by the sub-funds is recognised as a separate asset or liability.

Financial assets and liabilities are offset and the net amounts presented in the statements of financial position when, and only when, the sub-funds have a legal right to offset the amounts and intend either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The sub-funds classify non-derivative financial assets into the following categories: financial assets at fair value through profit or loss and loans and receivables.

Financial assets at fair value through profit or loss

The sub-funds designate all investments of financial assets at fair value through profit or loss on initial recognition because they manage these securities on a fair value basis in accordance with their documented investment strategy. Internal reporting and performance measurement of these securities are on a fair value basis.

Attributable transaction costs are recognised in statements of total return as incurred.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

Loans and receivables comprise cash and cash equivalents and other receivable.

Non-derivative financial liabilities

All other financial liabilities are recognised initially on the trade date, which is the date that the sub-funds become a party to the contractual provisions of the instrument.

The sub-funds derecognise a financial liability when their contractual obligations are discharged, cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statements of financial position when, and only when, the sub-funds have a legal right to offset the amounts and intend either to settle on a net basis or to realise the asset and settle the liability simultaneously.

The sub-funds classify non-derivative financial liabilities into the other financial liabilities category. Such financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method.

Other financial liabilities comprise other payables.

Measurement

Financial instruments categorised at fair value through profit or loss are measured initially at fair value, with transaction costs for such instruments being recognised in the statements of total return.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statements of total return. 'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the sub-funds have access at the date. The fair value of a liability reflects its non-performance risk.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate method.

Financial assets not at fair value through profit or loss, which are classified as loans and receivables are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Fair value measurement principles

The sub-funds measure the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as 'active' if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The sub-funds measure instruments quoted in an active market at last traded market price as long as there has not been a significant change in economic circumstances since the time of the transaction.

If there is no quoted price in an active market, then the sub-funds use valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The sub-funds recognise transfers between levels of the fair value hierarchy as at the end of the reporting period during which the change has occurred.

Impairment of financial assets

At each reporting date, the sub-funds assess whether there is objective evidence that financial assets not carried at fair value through profit or loss are impaired. If any such indication exists, an impairment loss is recognised in statements of total return as difference between the carrying amounts of the financial asset and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

If in a subsequent period the amount of an impairment loss recognised on a financial asset carried at amortised cost decreases and the decrease can be linked objectively to an event occurring after the write-down, the write-down is reversed through profit or loss.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

3.2 Revenue recognition

Dividend income is recognised in profit or loss on the date that the sub-funds' right to receive payment is established.

Interest income is recognised on the accrual basis using the effective interest rate method.

3.3 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the sub-funds at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year, adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

Non-monetary items in a foreign currency that are measured in terms of historical cost are translated using the exchange rate at the date of the transaction. Foreign currency differences arising on retranslation are recognised in statements of total return.

3.4 Unitholders' funds

Unitholders' funds represent the residual interests in the sub-funds' net assets upon termination and are classified as equity.

Expenses incurred in connection with the issuance of Units are deducted directly against the Unitholders' funds.

All Units issued by the sub-funds provide the investors with the right to redeem for cash the value proportionate to the investor's share in the sub-funds' net assets at redemption date.

Units in issue

Sundaram India Midcap Fund

Sundaram India Midcap Fund offers four classes of units, namely Classic Class, Emerald Class, Institutional Class and Cornerstone Class. Classes of Units may differ in terms of the rate of management fee, the minimum threshold amount relating to subscription, realisation and holding and the availability of participation in the Managers' regular savings plan.

	Classic Class Units	Emerald Class Units	Institutional Class Units	Cornerstone Class Units	Total Units
30 June 2019					
Units at beginning of the financial year	45,256,244	30,717,562	66,168,940	6,520,849	148,663,595
Units issued	7,816,854	9,817,790	17,751,388	85,662	35,471,694
Units redeemed	(10,956,067)	(2,899,914)	(17,798,561)	(1,165,799)	(32,820,341)
Units at the end of the financial year	42,117,031	37,635,438	66,121,767	5,440,712	151,314,948
Net assets attributable to Unitholders (US\$)	45,940,228	39,868,519	74,258,267	6,199,757	166,266,771
Net asset value per unit (US\$) attributable to Unitholders	1.09	1.06	1.12	1.14	1.10

30 June 2018

Units at beginning of the financial year

Units issued

Units redeemed

Units at the end of the financial year

	Classic Class Units	Sapphire Class Units	Platinum Class Units	Institutional Class Units	Cornerstone Class Units	Total Units
Units at beginning of the financial year	324,235	110,503	577,819	500,000	7,767,953	9,280,510
Units issued	751,508	112,241	118,459	—	125,004	1,107,212
Units redeemed	(101,869)	(173,229)	(342,812)	—	(217,390)	(835,300)
Units at the end of the financial year	973,874	49,515	353,466	500,000	7,675,567	9,552,422
Net assets attributable to Unitholders (US\$)	1,060,692	49,693	391,715	505,141	8,566,799	10,574,040
Net asset value per unit (US\$) attributable to Unitholders	1.09	1.00	1.11	1.01	1.12	1.11

All classes of units offered by the sub-funds are denominated US\$. Units are issued in US\$ based on the United States dollars net asset value on the date of subscription. Unitholders can redeem units in US\$ based on the United States dollars net asset value on the date of redemption.

For subscriptions, redemptions and various fee calculations, investments are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit.

8 Tax expenses

	<u>Sundaram India</u> <u>Midcap Fund</u>		<u>Sundaram Global</u> <u>Brand Fund</u>	
	2019 US\$	2018 US\$	2019 US\$	2018 US\$

	–	474,008	53,744	61,302

Sundaram India Midcap Fund

Sundaram India Midcap Fund is a designated unit trusts under the Singapore Income Tax Act (Chapter 134). As a result, the following sources of income are not subjected to Singapore tax at the sub-fund's level:

- (i) gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (ii) interest (other than interest for which Singapore tax has been withheld); and
- (iii) dividends derived from outside Singapore and received in Singapore.

The overseas capital gains tax represents taxes on realised gains on investments derived from outside Singapore and received in Singapore.

Sundaram Global Brand Fund

The Sundaram Global Brand Fund is under the Offshore Fund Scheme provided under section 13CA of the Income Tax Act (and the relevant Regulations) for the current financial period. Under the Offshore Fund Scheme, Sundaram Global Brand Fund enjoys Singapore corporate tax exemption on “specified income” derived from “designated investments”. Losses from “designated investments” are correspondingly disregarded, with certain exceptions. The terms “specified income” and “designated investments” are defined in the relevant Regulations.

9 Distribution

The Manager recommended the following distributions to Unitholders for the financial year.

Sundaram India Midcap Fund

	Classic Class US\$	Emerald Class US\$	Institutional Class US\$	Cornerstone Class US\$	Total US\$
30 June 2019					
Dividend at 5 cents per unit based on units outstanding as at 2 April 2019	2,132,671	1,706,846	3,704,501	267,752	7,811,770

	Classic Class US\$	Emerald Class US\$	Institutional Class US\$	Cornerstone Class US\$	Total US\$
30 June 2018

	56,412	13,081	35,346	40,000	614,232	759,071

10 Related party transactions

For the purposes of these financial statements, parties are considered to be related to the sub-funds if the sub-funds have the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the sub-funds and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

In the normal course of the business of the sub-funds, trustee fees, accounting and valuation fees have been paid or are payable to the Trustee and management and service fees have been paid or are payable to the Manager respectively as noted in the statements of total return. The sub-funds also carried out transactions which include banking and custodian services with the bank holding company of the Trustee in the normal course of business. Transactions with related parties were at terms agreed between the parties and within the provisions of the Deed of Trust.

The transactions with the Trustee and the Manager are as follows:

	<u>Sundaram India</u> <u>Midcap Fund</u>		<u>Sundaram Global</u> <u>Brand Fund</u>	
	2019	2018	2019	2018

11 Financial risk management

The sub-funds are exposed to a number of risks arising from the various equity investments they hold. The Manager believes that the sub-funds' investment policy will moderate the risk through careful selection of securities. The sub-funds have exposure to the following risks from financial instruments:

- Market risk
- Liquidity risk
- Credit risk

The sub-funds identify measures and monitor risk through various control mechanisms, including trading limits and diversifying exposures and activities across a variety of instruments, markets and counterparties.

(a) Market risk

Market risk is the risk of potential adverse changes to the value of financial instruments because of changes in market conditions like volatility in security prices. Sundaram India Midcap Fund invest primarily in equity shares of listed entities located in or incorporated in India. Sundaram Global Brand Fund invest primarily in equity shares of listed entities located in or incorporated in Belgium, France, Germany, Japan, Spain, Sweden and United States of America. The sub-funds manage their exposure to market risk through the use of risk management strategies and various analytical monitoring techniques that evaluate the effect of these financial instruments.

(i) Price risk

Price risk is the risk that the value of equity investments will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the sub-funds' equity instruments are carried at fair value with fair value changes recognised in the statements of total return, all changes in market conditions will directly affect the investment income.

Price risk is mitigated by the Manager by constructing a diversified portfolio of equity investments traded in various industries. The sub-funds' price risk are managed and monitored on a daily basis by the Manager in accordance with policies and procedures in place.

Sensitivity analysis

The table below sets out the effect on net assets attributable to Unitholders of a 5% increase or decrease in the underlying prices on all equity investments held by the sub-funds. The analysis assumes that all other variables remain constant.

	<u>Sundaram India</u>		<u>Sundaram Global</u>	
	<u>Midcap Fund</u>		<u>Brand Fund</u>	
	2019	2018	2019	2018
	US\$	US\$	US\$	US\$
Net effect on net assets attributable to Unitholders	8,053,102	8,837,380	341,225	472,406

(ii) Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates.

The sub-funds are not subject to significant risk of fluctuations in the market interest rates as the sub-funds' financial assets and liabilities are mainly non-interest bearing other than the cash balances.

(iii) Currency risk

The sub-funds invest in financial instruments and enter into transactions that are denominated in currencies other than their functional currencies. Consequently, the sub-funds are exposed to risk that the exchange rate of its functional currency relative to a foreign currency may change in a manner that has an adverse effect on the fair value of that portion of the sub-funds' financial assets or liabilities denominated in currencies other than United States dollars.

The currencies giving rise to this risk are primarily the Indian Rupee ("INR"), Euro ("EUR"), United States Dollar ("USD") Japanese Yen ("JPY") and Swedish Krona ("SEK").

The sub-funds' currency risk are managed by the Manager in accordance with policies and procedures in place.

At the reporting date, the carrying values of the sub-funds' net financial assets and liabilities held in individual currencies expressed in US dollars were as follows:

Sundaram India Midcap Fund

	INR US\$	SGD US\$	USD US\$	Total US\$
30 June 2019

Net currency exposure	1,471,981	573,939	142,349	8,385,771	10,574,040

Equity investments are non-monetary financial assets and are exposed to both currency risk and price risk. As these financial assets are non-monetary, no separate sensitivity analysis has been performed to analyse currency risk. The impact of currency risk arising from these financial assets on the sub-funds' net asset value have been included in the above price risk sensitivity analysis.

Sensitivity analysis

As at 30 June 2019 and 2018, with respect to the monetary assets and monetary liabilities of the sub-funds, had the United States dollars increased by 5% (2018: 5%), with all other variables remaining constant, the decrease in net assets attributable to Unitholders would be as follows:

	<u>Sundaram India</u>		<u>Sundaram Global</u>	
	<u>Midcap Fund</u>		<u>Brand Fund</u>	
	2019	2018	2019	2018
	US\$	US\$	US\$	US\$
INR	(137,586)	(199,852)	—	—
EUR	—	—	(5,309)	(18,189)
JPY	—	—	(76)	(3,704)
SEK	—	—	(1,165)	(178)
SGD	<u>(16,312)</u>	<u>(9,577)</u>	<u>—</u>	<u>—</u>

No sensitivity analysis has been presented, had the United States dollars decreased by 5%, as the impact on the net assets attributable to Unitholders would be the reverse of the above.

(b) Liquidity risk

Liquidity risk arises in the general funding of the sub-funds' trading activities. It includes the risks of not being able to fund trading activities at settlement dates and liquidate positions in a timely manner at a reasonable price. As a result, the sub-funds may not be able to liquidate quickly some of these investments at an amount close to their fair value in order to meet their liquidity requirements.

The sub-funds' investments in listed securities are considered to be readily realisable as they are actively traded on major stock exchanges. The sub-funds' liquidity risk is managed by investing primarily in marketable securities.

The table below analyses the sub-funds' financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the tables are the contractual undiscounted cash flows. The fair value of balances due within 12 months approximate their carrying balances, due to their short period to maturity.

Sundaram India Midcap Fund

30 June 2018			
Other payables	24,723	(24,723)	(24,723)

(c) Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that has entered into with the sub-funds. The Fund Manager continuously monitors the credit standing of any broker with whom it conducts business to minimise its credit risk.

The following financial assets are exposed to credit risk:

	<u>Sundaram India</u> <u>Midcap Fund</u>		<u>Sundaram Global</u> <u>Brand Fund</u>	
	2019	2018	2019	2018
	US\$	US\$	US\$	US\$
Financial assets at fair value				
through profit or loss	161,062,033	176,747,600	6,824,495	9,448,111
Other receivable	919,842	1,291,415	3,459	5,623
Cash and cash equivalents	6,377,389	7,839,551	1,222,889	1,145,029
	<u>168,359,264</u>	<u>185,878,566</u>	<u>8,050,843</u>	<u>10,598,763</u>

Substantially all of the assets of the sub-funds are held by The Hong Kong and Shanghai Banking Corporation Limited (the "Custodian"), that is rated AA- by Standard and Poor's. Bankruptcy or insolvency of the Custodian may cause the sub-funds' rights with respect to securities held by the Custodian to be delayed or limited. The sub-funds manage their risk by monitoring the credit quality and financial position of the Custodian.

Other than mentioned above, there were no significant concentrations of credit risk to counterparties at the end of the reporting period.

(d) Capital management

The sub-funds' capital are represented by the net assets attributable to unitholders. The sub-funds strive to invest the subscriptions of redeemable participating units in investments that meet the sub-funds' investment objectives while maintaining sufficient liquidity to meet unitholders' redemptions.

(e) Estimation of fair value

Fair value of financial assets and financial liabilities that are traded in active markets are based on quoted market prices or dealer prices quotations. The fair value of financial assets at fair value through profit or loss are determined by reference to the last traded market price at the reporting date.

The carrying amounts of other financial assets and financial liabilities (including other receivable, cash and cash equivalents) are assumed to approximate their fair value because of the short period to maturity.

The sub-funds measure fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in active markets for an identical instruments. The sub-funds do not adjust the quoted price for these investments, even in situations where the sub-funds hold a large position and a sale could reasonably impact the quoted price.
- Level 2: Valuation techniques based on observable inputs excluding quoted prices (unadjusted) in an active market for an identical instrument, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The following table analyses financial instruments measured at fair value at the end of the reporting period, by the level in the fair value hierarchy into which the fair value measurement is categorised:

Sundaram India Midcap Fund

	Level 1 US\$	Level 2 US\$
30 June 2019		
Quoted equity securities	160,084,499	—
Unquoted equity securities	—	977,534
	<u>160,084,499</u>	<u>977,534</u>
30 June 2018		
Quoted equity securities	<u>176,747,600</u>	—

Sundaram Global Brand Fund

	Level 1 US\$
30 June 2019	
Quoted equity securities	<u>6,824,495</u>
30 June 2018	
Quoted equity securities	<u>9,448,111</u>

12 Financial ratios

	2.16	4.69	2.15	1.65	1.40	1.54
						7.70

- Note (i) - The expense ratio has been computed based on the guidelines laid down by the Investment Management Association of Singapore ("IMAS"). The calculation of the expense ratio was based on total operating expenses of divided by the average net asset value for the year. The total operating expenses do not include (where applicable) brokerage and other transactions costs, performance fee, interest expense, distribution paid out to Unitholders, foreign exchange gains/losses, front or back end loads arising from the purchase or sale of other funds and tax deducted at source or arising out of income received. The sub-funds do not pay any performance fee. The average net asset value is based on the daily balances during the year.
- Note (ii) - The portfolio turnover ratio is calculated in accordance with the formula stated in the Code on Collective Investment Schemes. The calculation of the portfolio turnover ratio was based on the lower of the total value of purchases or sales of the underlying investments for the 12 months preceding the reporting date, divided by the average daily net asset value respectively as below:

	<u>Sundaram India</u>		<u>Sundaram Global</u>	
	<u>Midcap Fund</u>		<u>Brand Fund</u>	
	2019	2018	2019	2018
	US\$	US\$	US\$	US\$
Total value of purchases or sales of the underlying investments	55,460,752	52,278,092	356,926	812,709
Average daily net asset value	<u>166,439,607</u>	<u>181,520,726</u>	<u>8,834,625</u>	<u>10,549,707</u>

Additional disclosures in relation to the sub-funds
