Sundaram Multi Asset Fund Overview

- Sundaram Multi Asset Fund (SMAF) is a diversified Fund of Funds with exposure to equity and non-equity correlated asset classes with the objective of delivering steady, positive returns over the medium and long term.
 - Target is to pay approximately 5% per annum via quarterly dividends.
- The Fund targets to allocate up to 60% in equities and up to 60% into non-equities*
 - Equity portion of the AUM is invested via suitable funds into high-quality global large cap equities.
 - Non-Equity portion of SMAF is invested into a Life Settlements Fund which has a long track record of generating absolute annual returns irrespective of the global capital market movements.
 - In CY 2022, the Life Settlement Fund generated +9.8% return (inclusive of dividends paid out) at a time when the Bloomberg Aggregate Global Bond Index (Hedged) returned -11.2% and the MSCI ACWI Index returned -18.4%
- The fund is currently 70% allocated to Life Settlements Asset Class and 30% to high quality Global Equity Fund.
- Since inception in December 2020, the Fund has returned 4.8%* on an annualized basis.

* Allocations may exceed the mentioned limits from time to time. Please read the Information Memorandum for further details.

Key Risks

- Liquidity Risk – BlackOak is not a liquid fund. Typically, it takes 2 months for the redemption proceeds to be paid out.
 - Redemption pay out in exceptional cases could take up to 7 calendar months.
 - Mitigating factors:
 - Gating of redemption requests: Manager may limit the redemption requests to 10% of the Units of the Fund or Class and in such event the limitation will apply pro rata.
 - Fund dealing is on a weekly basis.
- BlackOak Valuation – Based on internal valuation methodology.
 - Historic track record of the fund in this regard has been good thus far. Actual to expected mortality in terms of value is 119% as of December 31, 2023.
 - KPMG has examined the performance track record of BlackOak from 1 February 2014 to 31 December 2023. In their opinion, the performance track record reflects the performance of the Fund over the performance track record period.
- Market Risk – Investments by SMAF are subject to market fluctuations and may be adversely affected by political instability, exchange controls and other restrictions imposed by authorities in relevant countries
